SPECTRUM
ADVANCED LEARNING

Skills Studio pathway · Ages 10–17

Cyber Security Studio

Ten hands-on days learning to protect people and organisations online.

About the programme

Cyber Security Studio teaches security the way defenders practise it, at the centre or live online. Students learn the CIA triad, passwords and multi-factor authentication, phishing, privacy, encryption, networks and risk, then design and present a security awareness campaign or a security plan. Everything is defensive and authorised.

Highlights

- **What your child gains.** Safer habits online for the whole family, a clear view of careers in security, and a campaign for their portfolio.
- **Foundations.** Threats, the CIA triad, passwords and MFA, phishing and social engineering.
- **Defensive labs.** Password, cipher and risk labs in safe training environments.
- **Privacy and ethics.** The law, professional ethics and an ethics charter every student signs.

LENGTH
3.5 weeks (10 days)

DAYS
3 days a week

WHERE
At the centre or live online

START POINT
Free diagnostic and consultation
