Σ Mastery pathway · Grades 1–11

Spectrum Math Mastery

Find the exact gap. Close it for good.

About the programme

Most students who struggle in maths are not "bad at maths". They are missing a handful of earlier skills that every new topic depends on. Math Mastery starts with a diagnostic test that finds those skills, then builds a personal queue of skill packs that close them in order.

Highlights

- **Diagnostic first.** A placement test at each of four stages maps what the student can and cannot yet do.
- **Seven levels, one skill at a time.** Nearly 300 twelve-page skill packs, from number sense to calculus, each with teaching notes, worked examples and graded practice.
- **Mastery checks.** A skill is only marked complete when the student scores 7 out of 8 on a mastery check, twice.
- **Progress you can see.** A personal learning plan and progress tracker show parents exactly what has been mastered.

LEVELS
7 (Grades 1–11)

SESSION LENGTH
60–90 minutes

FORMAT
Small groups or one-to-one

START POINT
Free diagnostic and consultation

MATERIALS INCLUDED
296 original packs, 296 slide decks, online workbooks

Book a free diagnostic
