To parents and guardians

Real-world experience for your child, safely planned

Dear parent or guardian,

Children choose subjects, degrees and careers better when they have seen real work. Spectrum placements give students aged 10 to 18 that experience, inside companies, firms, media houses, NGOs, public bodies and technology teams, with every step planned and supervised.

How a placement works

- **Week 1: Academy.** Professional skills, safety, and how organisations work, at Spectrum.
- **Weeks 2–5: Placement.** Usually four days a week with a host team and a named mentor.
- **Week 6: Pitch.** Your child presents a project to the host's leaders, and you are invited to the closing event.

Your child's safety

- One Spectrum supervisor for every eight students.
- Host mentors are briefed on safeguarding and never work alone with a student.
- Every placement has a risk assessment and a signed host agreement.
- You sign consent before the programme starts; photographs are taken only with your written permission.

Cohorts and fees

Cohorts run in March–April, June–July (our flagship cohort), August–September and October–November. Six-week programmes with a placement cost from Rs 68,000 (US$243); six-month Career Pathways cost Rs 285,000 (US$1,018). Online courses and self-study packs are also available for students who cannot join a placement. An 8% local tax applies.

To enrol or ask a question, visit **spectrum-learning.com/placements**, call **+92 324 4449039** (9 am to 10 pm) or email **info@spectrum-learning.com**.

With warm regards,
The Spectrum Advanced Learning team
