SPECTRUM
ADVANCED LEARNING

LETTER TO TEACHERS

10 November 2026

To teachers and teaching assistants

An invitation to teach the Spectrum way

Dear colleague,

Good teachers never stop learning. At Spectrum we have built a practical method that helps every student make visible progress: a diagnostic before any teaching, one skill at a time to mastery, clear modelling, plenty of guided and independent practice, and honest, encouraging feedback. We would like to invite you to learn it with us.

Teacher Academy courses, at our centre in Lahore or live online

- **1-Week Intensive.** Diagnostic teaching, criterion-based assessment, feedback and differentiation, teaching AI and digital skills, and project-based learning. Rs 45,000 (US$161) at the centre, Rs 40,500 (US$145) online.
- **3-Week Certificate.** Everything in the Intensive, then observed teaching with a coach and an assessed portfolio. Rs 120,000 (US$429) at the centre, Rs 108,000 (US$386) online.
- **Teaching Students with Special Educational Needs.** Two weeks on understanding needs, adapting lessons, individual education plans, behaviour and wellbeing, and working with families. Rs 60,000 (US$214) at the centre, Rs 54,000 (US$193) online.

Every course is hands-on. You work with real Spectrum packs and slides, practise in small groups and leave with templates and resources you can use in your own classroom the next day. Schools can also book courses for a whole department.

The same philosophy guides our own staff: every Spectrum teacher completes the Spectrum Educator Certification and is coached every term. If you would like to teach with us, see our open roles at **spectrum-learning.com/careers**.

To book a place, visit **spectrum-learning.com/our-teachers**, call **+92 324 4449039** or email **info@spectrum-learning.com**. An 8% local tax applies.

With warm regards,
The Spectrum Advanced Learning team
